Resources at U of A available for graduate students from the Graduate School and the Graduate-Professional Student Congress

Abstract: In this seminar, students will learn about several academic, financial, teaching assistant, and wellness resources available on campus as well as specific resources within the graduate school. Some of these resources include academic, financial, health and wellness resources, as well as those for teaching assistants and other professional development.

Laura Moix is the director of graduate student support. Her office works to support the academic, personal and professional development of graduate students. This includes the new Razorgrad Institute for Success and Engagement (RISE) Program, which deepens our investment in incoming graduate students from historically underrepresented & first-generation populations with professional development opportunities, practical tips and tricks for graduate school, and a social introduction to the University of Arkansas. She earned a B.A. in German, International Relations, and European Students and a M.A. in German Literature from the University of Arkansas, Fayetteville.

JD DiLoreto-Hill is a third year PhD student in Public Policy with a focus in higher education policy. He earned his undergraduate degree in Political Science from the University of Massachusetts Boston and his Master’s in Public Administration from the University of Arkansas. His research has focused on policy related to campus sexual assault, social justice issues in higher education, and diversity and inclusion policies. JD recently completed a term on the board of directors for the National Association of Graduate and Professional Students as their Social Justice Chair and is in his third year involved with student government on the UofA campus having previously served as Director of Legislative Affairs and Vice President. JD lives in Fayetteville with his husband, Associate Dean Bryan Hill for the College of Engineering, and their two sons.

Thursday, February 20, 2020 | 11:00 a.m. – 12:15 p.m. | Bell Engineering Center | Room 2286

The College of Engineering values the inclusion of people with disabilities in our programs and activities. If you are a person with a disability and anticipate barriers to your full participation in this event, please contact Dr. Bryan Hill, call/text: 479-530-1055 or email: bwhill@uark.edu.
Please notify us as soon as possible before the event to request a sign language interpreter at the event.

Seminar is free and open to the public. Metered parking is available in Lot 71 across the street from the John A. White, Jr. Engineering Hall and in the Harmon Garage down Duncan Avenue. For information about the department, visit https://chemical-engineering.uark.edu/
